Slackline is a new trend sport, very similar to tightrope walking, but practised on an 8 cm wide webbing. Unlike balancing on a wire rope, which is so tightly stretched that it hardly moves at all, the webbing stretches under the weight of the slackliner. This makes balancing on it very dynamic and requires constant active balancing

TECHNICAL

The unit is supplied including a 4.00 x 0.50 m prefabricated foundation plate and can be used immediately after installation. Unique is also the possibility to re-tension the tape at any time! The tape is made of a very
