

## Mud table, round

### GENERAL INFORMATION

- Dimensions:** Ø 1,00 m
- Falling area (M):** Ø 4,00 m
- Age group:** 3 and older
- Catalog page:** Page 65

General information Water and mud play systems Water play systems or mud play systems are a real highlight on every playground. A water play system consists of many different elements and can be completely adapted to the needs on site.

### MATERIAL

The pools are made of blue HPL with milled patterns, the posts are made of galvanised steel. The water play landscape must be assembled individually. The height of the individual elements is always made up of the composition.
