

Pump Stand

GENERAL INFORMATION

Waterplay schemes can incorporate a wide variety of different and interlinked pieces of equipment. Have a look at the table below to see some of the different possibilities. Please consult your local representative if you would like us to design a scheme for you. Materials Water channels and basins are made from scarlet polyethylene material. Supports are made from square section timber or galvanised steel.

- Dimensions:** 1,50 x 1,50 x 0,25 m
- Free fall height:** 0,25 m
- Falling area (M):** 4,50 x 4,50 m
- Falling area (M):** 20.25 qm
- Age group:** 3 and older
- Catalog page:** Page 39
