-  **Catalog page:** Page 55

The Safari Parc device spring balance beam is a great balancing option. The exciting Safari-Parc is a great idea for any playground or schoolyard. Many individual Safari-Parc units have a drop height of less than 60 cm. This makes it possible to build the equipment or a whole park on a sealed surface.

MATERIAL

- 14 cm native coniferous wood, KDI and core separated
- steel, hot-dip galvanised
